Professional profile

I am a full stack web developer with extensive experience in creating digital solutions. My set of technical skills includes languages such as JavaScript and tools like MongoDB, along with a deep understanding of frameworks like React and Node.js. My value proposition lies in my ability to translate client needs into efficient and effective technological solutions. Furthermore, my proficiency in conflict resolution and empathy allows me to collaborate effectively in interdisciplinary teams, ensuring a harmonious work environment and smooth communication.

technical skills

Web development: HTML, CSS, JavaScript, TypeScript, Git, chakraUi

database: MongoDB, MySQL

Frameworks: React, Express

Execution environments: Node.js, API REST

Agile methodologies: Scrum

Soft Skills

Results orientation

Project planning

Problem resolution

Leadership

Education

2021 - actual

Administración pública

Escuela superior de administración pública (ESAP)

July 2023 – Nov 2023

Full-Stack Web developer

ADA school

Work experience

July 2023 – Nov 2023 ADA school

Trainee

Front-end developer

I developed a to-do list using React, Chakra UI, CSS, JavaScript, and LocalStorage. First, I defined the structure of my React application by dividing it into components such as TaskList, TaskItem, and TaskForm. I used Chakra UI to design and style the components elegantly and responsively, combining custom CSS for specific adjustments. For the functionality of the to-do list, I implemented logic in JavaScript to add, delete, and mark tasks as completed. Additionally, I employed LocalStorage to store task data persistently in the user's browser, allowing saved tasks to persist even after reloading the page or closing the browser. [See project](#)

Backend developer

I used Express and Node.js to create a to-do list server. I configured RESTful routes for CRUD operations and used Postman to test them. I implemented logic to interact with a MongoDB database to store and retrieve task data. [See project](#)

Additional informatio

other courses:

2023	English4 (course)
2023	Socio-emotional skills for employability PRO talento

Hobbies: I really like martial arts Therefore I have developed a lot of discipline and self-motivation in any field.
