Professional profile

I am a full stack web developer with extensive experience in creating digital solutions. My set of technical skills includes languages such as JavaScript and tools like MongoDB, along with a deep understanding of frameworks like React and Node.js. My value proposition lies in my ability to translate client needs into efficient and effective technological solutions. Furthermore, my proficiency in conflict resolution and empathy allows me to collaborate effectively in interdisciplinary teams, ensuring a harmonious work environment and smooth communication.

---

technical skills

Web development: HTML, CSS, SASS, JavaScript, TypeScript, Git, chakraUi
database: MongoDB, MySQL
Frameworks: React, Express
Execution environments: Node.js, API REST
Agile methodologies: Scrum

Soft Skills
Results orientation
Project planning
Problem resolution
Leadership

Education

| 2021 - actual | **Public Administration** |
| | Escuela superior de administración pública (ESAP) |

| July 2023 – Nov 2023 | **Full-Stack Web developer** |
| | ADA school |

Work experience

July 2023 – Nov 2023 ADA school

Trainee Front-end Developer

- Developed a task list using React, Chakra UI, CSS, JavaScript, and LocalStorage. First, I defined the structure of my React application, dividing it into components like TaskList, TaskItem, and TaskForm. I used Chakra UI to design and style the components elegantly and responsively, combining custom CSS for specific adjustments. For the task list functionality, I implemented logic in JavaScript to add, delete, and mark tasks as completed. Additionally, I used LocalStorage to persistently store task data in the user's browser, allowing saved tasks to persist even after reloading the page or closing the browser. View project

Trainee Backend Developer

- Used Express and Node.js to create a task list server. Configured RESTful routes for CRUD operations and tested them with Postman. Implemented logic to interact with a MongoDB database to store and retrieve task data. View project

Additional information

other courses:

2023	English4 (course)
2023	Socio-emotional skills for employability **PRO talento**

Hobbies:	I really like martial arts Therefore I have developed a lot of discipline and self-motivation in any field.
